

Debarjun Thakur

Frontend Developer | AI Systems Builder

West Bengal, India | Available Globally (Remote) | debarjunthakur020@gmail.com | github.com/Itshardtofindagoodname | linkedin.com/in/debarjun-thakur | debarjun.vercel.app

Summary

Frontend developer and AI systems builder with 3+ years shipping production web products. Primary frontend engineer for Raen AI, where technical SEO and Core Web Vitals work helped the company reach the number one Google ranking for its primary brand keyword. Builds interfaces in React, Next.js, and TypeScript, and designs AI-powered developer tooling, including CLI assistants, federated search engines, and code generators, using Groq, LLaMA 3, Mixtral, and RAG pipelines. Runner-up at Smart India Hackathon 2023 among 200,000+ teams.

Technical Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, HTML5, CSS3, Responsive Design
- **Backend & Data:** Node.js, FastAPI, REST APIs, SSR, JWT Auth, Real-Time Data, MongoDB, PostgreSQL, SQLite, SQL
- **AI & ML:** Groq API, LangChain, Hugging Face Transformers, LLaMA 3, Mixtral 8x7B, RAG, LoRA/PEFT, Unsloth, TRL, Gemini API, AI Agents
- **SEO & Performance:** Technical SEO, Core Web Vitals, Structured Metadata, Semantic Hierarchy, Indexing Strategy
- **Infrastructure:** Vercel, Netlify, AWS, Cloudflare, Docker, CI/CD, Git, GitHub REST API, React Native, Flutter, Figma

Professional Experience

Raen AI

May 2024 – Present

Frontend Developer

- Own the React and TypeScript/Next.js frontend stack across Raen AI's marketing pages, product interfaces, and internal platforms.
- Drove technical SEO across structured metadata, semantic hierarchy, and indexing strategy, and rebuilt load time and rendering efficiency, helping the company reach the number one Google ranking for its primary brand keyword and improving Core Web Vitals scores.
- Led frontend development of the GarageView CRM web portal, including authentication flows and real-time data interfaces used by clients daily.
- Partnered with designers and product managers to ship production interfaces with motion design using Framer Motion, GSAP, and Lenis.

Self-employed

2023 – May 2024

Freelance Software Developer

- Delivered end-to-end web and software projects for private businesses and NGOs, independently managing multiple concurrent client codebases from scoping through handoff.
- Handled full-stack delivery spanning React/Next.js frontends, REST API integration, and MongoDB database design.

Projects

Cairn — Federated Dataset, Model, Paper & Code Search Engine

Next.js, TypeScript, SQLite, SSE, Groq |

github.com/Itshardtofindagoodname/Cairn

- Built a federated search engine that fans one query out to 8 sources in parallel (Hugging Face, arXiv, GitHub, Kaggle), streaming ranked results live over server-sent events.
- Designed a transparent 0–100 reproducibility score with a hand-implemented TF-IDF relevance model, no black-box ranking, plus a two-tier cache for sub-millisecond repeat searches.

Tornado — Local-First Federated Torrent Search Client

Node.js 22, TypeScript, Ink + React TUI, WebTorrent |

github.com/Itshardtofindagoodname/Tornado

- Built a terminal-native client that federates 10+ sources concurrently with per-source fault isolation, deduping and ranking results with no account, cloud, or telemetry.
- Engineered a download manager with persistent queue, resume support, and SQLite-backed crash recovery, plus a full Ink + React TUI with configurable keybindings and a headless JSON mode.

Additional: GitGud, LLM-fabricated repo histories published via the GitHub REST API (github.com/.../gitgud). FastFox, an AI CLI assistant for file organization and document analysis (github.com/.../fastfox)

Education

Asansol Engineering College

Bachelor of Technology, Computer Science and Engineering

Achievements

- Smart India Hackathon 2023 — Runner-Up (100,000+ teams); AI Unite Hackathon 2023 — Top 5 nationally, Master's scholarship; Hardware Model Making Competition 2024 — Winner; 10+ further competition wins
- Led an open-source student developer community for 3+ years
